

# Gravity

(Cohen/Gray)

What pulled my scoop of ice cream  
Down to the floor  
From up here on my cone  
Where it isn't anymore

What pulls moons to orbit planets  
And planets orbit stars  
What keeps you down to Earth  
And maybe one day, down to Mars

It's gravity  
Nothing you can see  
Gravity  
But it's got a hold on me  
G-R-A-V-I-T... Y  
Gravity

When out there there was nothing  
But space all full of space  
What glued galaxies together  
helped put planets into place

It's gravity  
Nothing you can see  
Gravity  
But it's got a hold on me  
G-R-A-V-I-T... Y  
Gravity

Gravity  
Nothing you can see  
Gravity  
But it's got a hold on me  
G-R-A-V-I-T... Y

What pulled my scoop of ice cream  
Down to the floor?
