

## Lunar Tune

(Cohen/Gray)

I'm in  
Your spin  
Stuck in your orbit  
I smile and adore it  
Every night  
Sunlight  
Sets my face beaming  
I watch while you're dreaming

Venus and Mercury have no moon  
How lonely they are  
But Saturn and Jupiter  
Have more than fifty  
Sounds very nifty  
But I think one Earth and one Moon  
Make one lovely lunar tune

Feels so  
Moon glow  
Knowing your bright eyes  
See me in your night skies

And you  
Sparkle blue  
Wash me in earthshine  
I'm yours and you're all mine

And as I look down on you  
And you up at me  
I feel so full moon to know  
I tug on your tides  
While your gravity guides  
Me just like a big balloon  
Let's sing around that lunar tune  
Moon....
