The Quadrantids Meteor Shower peaks tonight and are best viewed from a dark location away from city lights

9

NASA's Surveyor 7 unmanned spacecraft landed on the Moon 53 years ago and returned photos of the Moon's surface

Amelia Earhart became the first woman pilot to fly solo between Hawaii and the mainland United States 86 years ago. The trip took her more than 18 hours!

In 2006, NASA's Stardust space capsule landed in the Utah desert with the first ever dust samples from a comet, which provided clues about the origins of the Solar System. Its reentry speed of 28,860 miles per hour is the fastest ever of any human-made object.

Best time to view Mercury as it will be at its highest point this evening. Look for the planet low in the western sky just after sunset.
