In 1970, Apollo 13 passed behind the Moon, out of radio contact, and set an altitude record of nearly 250,000 miles from the center of the Earth.

Lyrids Meteor Shower peaks tonight, best viewed away from city lights.

Get ready for Earth Day tomorrow by watching "Volunteer Day" on our YouTube channel.

Watch Space Racers on [YouTube.com/SpaceRacers](https://www.youtube.com/SpaceRacers) and Amazon Prime
